

4th Annual ISRS™ Conference 2010

Benchmarking Safety and Sustainability

Muziekgebouw-aan't-IJ Concert Hall, Amsterdam
Tuesday 7 to Wednesday 8 September 2010

The annual ISRS conference is a unique opportunity to gain new insights and share experiences on safety and sustainability management. The theme for this year's conference is *benchmarking safety and sustainability*.

Invest two days of your time to listen to manager's and consultant's own accounts of implementing safety and sustainability management systems, the challenges they met and the solutions they found. Learn about good practice in safety and sustainability management.

Meet others from the global ISRS community. Expand your professional network with managers and consultants from different industries. Learn about and help shape new developments in ISRS services including new benchmarking services and ISRS 9th Edition.

Client projects presented at this conference include: Total, Scottish Power, PT Badak, Statoil, Indian Oil Corporation Ltd, China Nuclear Power Engineering Co, SPE, Medco Energi and Maersk. At the time of writing, 75 participants are confirmed to attend from 20 different countries. Please refer to the conference agenda for a full list of presentations.

Amsterdam is famous for its culture and canals. To sample both participants will travel by boat to the Van Gogh Museum for a guided tour of some of the world's most famous paintings, followed by a dinner cruise around Amsterdam's canals before returning by boat to the Concert Hall and Mövenpick hotel.

The *Frank Bird Award for ISRS Innovation* and the *Best ISRS Project Award* will be selected and presented during the conference.

TO JOIN

Interested in attending? Don't hesitate. Complete the form overleaf and return to your local DNV office or isrs@dnv.com.

About ISRS

ISRS is a system to assess, improve and demonstrate the health of an organisation's business processes. The International Safety Rating System 1st Edition was developed in 1978 by Frank Bird, a safety management pioneer. In recent years ISRS has been changing to include sustainability issues including environmental, health and quality management and sustainability reporting. ISRS 8th Edition was launched in 2009 incorporating best practice in process safety management. www.dnv.com/isrs

4th Annual ISRS™ Conference 2010

Benchmarking Safety and Sustainability

Conference Fee

The fee of EUR 700 includes admission to the conference, lunch, refreshments and the evening entertainment. Reductions are available for clients presenting papers and for ISRS licensed clients.

The fee does not include accommodation. The choice of hotel and payment for overnight accommodation is the responsibility of each participant. If participants would like assistance in locating a suitable hotel please contact astrid.noorthoek@dnv.com

Non DNV participants will be invoiced from their DNV local office. DNV participants will be invoiced internally by the ISRS Product Centre.
